PROFESSIONAL SUMMARY

Aspiring Data Science and Data Analytics student with a strong academic foundation in statistics, data analysis, and programming. Experienced in analysing real-world datasets to uncover insights using python, R, SQL, and Power BI. Passionate about data-driven decision-making, problem-solving, and transforming complex data into actionable insights. Seeking an internship or graduate opportunity to apply analytical skills in a professional environment.

EDUCATION

Bachelor of Science in Data Science

Sol Plaatje University - Kimberley

2022 – 2026 | Kimberley

Relevant Coursework: Statistics, Data Analysis, Programming, Database Systems, Data Visualisation

Matric

Tetlanyo High School - Kimberley

2017 – 2021 | Kimberley

- Ranked in the Top 5% of the graduating class

CERTIFICATIONS

- HP Life - Data Science and Analytics
- HP Life - Critical Thinking in the AI Era
- Microsoft Certified: Power BI Data Analyst Associate-NEMISA
- Microsoft Certified: Data Scientist Associate - NEMISA
- SheCodes-Introduction to Coding
- Future Interns-Data Science and Analytics Internship

ACHIEVEMENTS & LEADERSHIP

Top Achiever grade 12

Eskom Expo for Young Scientists -Silver Award

RCL Deputy President

English Olympiad- Merit Award

Best Performing Student in English FAL

PROJECTS

TraceAlert-Financial Fraud Detection and Money-Flow Investigation

07/2026 – 09/2026

TraceAlert is an interactive financial crime intelligence system built with R and Shiny to investigate suspicious financial activity, detect potentially fraudulent transactions, identify unusual customer behaviour, assess account takeover risk, and trace suspicious money flows.

The project combines machine learning, behavioural analytics, anomaly detection, risk scoring and network-based money-flow analysis into a single investigation workflow.

TECHNICAL SKILLS

Programming Languages

R, SQL

Data Analysis

Data Cleaning, Exploratory Data Analysis (EDA)

Data Visualisation

Power BI, Excel, R (ggplot2)

Databases

SQL Fundamentals

Tools

Microsoft Excel, GitHub

Other Skills

Critical Thinking, Analytical Reasoning, Communication

LANGUAGES

English

Fluent

Setswana

Fluent

Afrikaans

Basic

The goal is not simply to classify a transaction as fraudulent. TraceAlert is designed to answer the questions that come after an alert:

Safe Space:AL-Powered Mental Health Risk Detection in SA Public healthcare

02/2026 – 08/2026

SafeSpace is an AI-powered mental health self-risk screening system that detects how much of a risk a patient is to themselves at the point of referral in South African public healthcare facilities, and immediately connects them to the appropriate level of support.
